## CONSTITUTIONAL PROCESS: A SOCIAL CHOICE ANALYSIS OF SUPREME COURT DECISION MAKING (PAPERBACK)

The University of Michigan Press, United States, 2002. Paperback. Condition: New. Reprint. Language: English . Brand New Book. This is the first comprehensive analysis of how the collective nature of Supreme Court decision making affects the transformation of the justices preferences into constitutional doctrine. Analyzing the Supreme Court from the perspective of social choice theory, Maxwell L. Stearns offers new insights into Supreme Court decision making that have profound implications for understanding the outcomes in a number of cases and the resulting doctrinal development within constitutional law which traditional analyses have proven ill-equipped to explain. The book models several important process-based Supreme Court rules, including outcome voting, the narrowest-grounds rule, stare decisis, and justiciability, with a particular emphasis on standing. These doctrines have each had a significant impact upon the evolution of modern constitutional law, including but not limited to the following areas: affirmative action, school desegregation, racial gerrymandering, obscenity, and abortion. In addition, the book sheds new light on why the Court employs stare decisis, even though the doctrine grounds the evolution of legal doctrine on the order in which cases are presented and decided, and on how the modern standing doctrine ameliorates the incentives for interest groups to time the litigation of cases in a way that will exert a disproportionate influence over the direction of constitutional doctrine. This book will appeal...
