BROOKINGS INSTITUTION, United States, 1999. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The prescriptions contained in this report seek to intensify a broader and more comprehensive transatlantic partnership. Some reinforce current administration policy, especially with respect to European security and political economy, while other policy suggestions go against administration policies, particularly outside Europe. The entire thrust of the ambitious prescriptions, however, requires more vigorous and active presidential and congressional leadership than has often been seen in recent years. The most important departure from present U.S. policy is the report's emphasis on drawing Europe, over time, much further into a global strategic partnership with the United States in order to help shape the new era.
